

# Product Overview

URODYNAMICS  
ANORECTAL MANOMETRY

MEDKONSULT  
MEDICAL TECHNOLOGY

## Product Overview

### Uromic QuickStep

#### 8 measure channels

- exact cystometric / profilometric pump
- waterproof profilometric puller
- videourodynamics
- height adjustable stand
- control PC with touch screen, waterproof keyboard
- inbuilt ultrasound module for B mode, CFM and PD doppler as option

### Uromic Tango

#### 16 measure channels

- exact cystometric / profilometric pump
- waterproof profilometric puller
- videourodynamics
- inbuilt ultrasound module for B mode, CFM and PD doppler

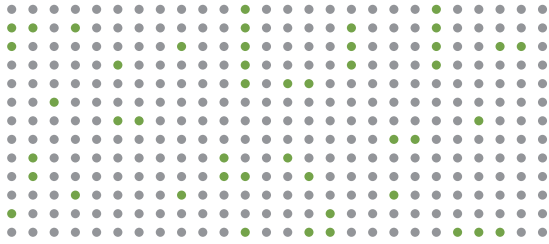

### Uromic Samba

#### 8 measure channels

- exact cystometric / profilometric pump
- waterproof profilometric puller
- videourodynamics
- inbuilt ultrasound module as option

## URODYNAMICS ANORECTAL MANOMETRY

### Uromic Jive S

#### 5 measure channels

- exact cystometric / profilometric pump
- waterproof profilometric puller
- height adjustable stand
- control PC with touch screen, waterproof keyboard

### Uromic Jive EC

#### 5 measure channels

- complete software for urodynamics
- ultrasonography for B mode, CFM and Power doppler as option
- inbuilt into the examination couch

### Uromic Jive AR

#### 8 measure channels

- anorectal or esophageal manometry
- puller for vector measurements as option

### UroPress - ambulatory urodynamics

#### 3 measure channels/5 measure channels

- pressure holter
- natural cystometry
- anorectal manometry

## Uroflowmeters

### DanFlow 1000

- uroflowmeter with compact control unit in stainless steel box
- inbuilt thermoprinter, SD memory card
- automatic measurements

### DanFlow 1100

- uroflowmeter with compact control unit in stainless steel box
- transducer connected wirelessly
- inbuilt thermoprinter, SD memory card
- automatic measurements

	Tango	QuickStep	Samba	Jive	Jive AR	DanFlow 1000	DanFlow 1100	UroPress
Total measured channels	16	8	8	5	8	1	1	5
Wire channels	up to 16	up to 8	8	up to 5	up to 8	1	–	up to 4
Wireless channels	8+2 UFM	4+2 UFM	–	1 (UFM)	up to 8	–	1 (UFM)	1 (UFM)
Uroflowmetry	•	•	•	•	–	•	•	•
Voiding Cystometry	•	•	•	•	–	–	–	•
Filling Cystometry	•	•	•	•	–	–	–	natural
VLPP	•	•	•	•	–	–	–	•
PQ study	•	•	•	•	–	–	–	–
EMG+ biofeedback	•	•	•	•	–	–	–	•
X-ray Videourodynamics	•	•	•	–	–	–	–	–
Ultrasonography module (CFM, PD)	•	optional	optional	–	–	–	–	–
Anal manometry	8ch	4ch	4ch	–	8ch	–	–	4ch
Freely programmable channels	•	•	•	•	–	–	–	•
